Annual Report 2026

Chairman's message

Northstar Industries delivered a year of disciplined growth. Revenue rose by eleven percent, helped by stronger demand in the pumps and valves businesses, while operating cost grew more slowly than sales.

Strategy

Our strategy rests on three pillars: reliability of supply, investment in automation, and closer partnerships with our largest customers.

Risks

Principal risks remain commodity prices, currency movements and the pace of the warehouse migration.

Highlights
Revenue up 11 percent
Margin 14.2 percent
Three new plants

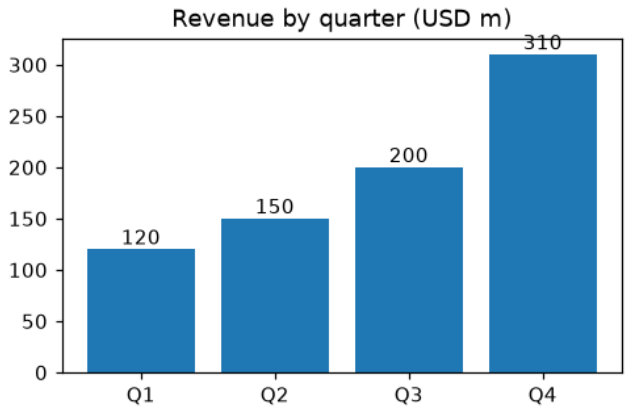

Figure 1. Revenue by quarter (USD m).

Segment results

Segment	Product line	FY2026	FY2025	Change
Pumps	Industrial	310.4	281.0	+10.5%
	Domestic	122.8	118.2	+3.9%
Valves	Process	205.1	176.9	+15.9%
	Marine	64.0	70.5	-9.2%
Seals	All	88.2	80.1	+10.1%

(1) Segment results are in USD million. (2) Marine valves were affected by one delayed order.
