Section 7: Energy

Section 8: Suppliers

Section 9: Inventory

Section 10: Customers

Section 11: Projects

Section 12: Training

Section 13: Audits

Section 14: Risks

Section 15: Capital

Section 16: Outlook

Section 17: Governance

Section 18: Appendix

Section 1: Safety

sensor supplier customer delivery inventory customer training customer schedule budget energy plant training audit inventory safety schedule plant budget quality output delivery audit training safety maintenance energy output sensor safety plant customer safety maintenance supplier quality budget training inventory maintenance quality inventory inventory output quality sensor sensor audit quality quality plant training plant safety inventory safety quality training quality supplier delivery safety energy budget schedule schedule safety quality customer safety budget maintenance supplier plant delivery maintenance quality budget quality supplier output delivery supplier training sensor sensor plant sensor schedule customer delivery output supplier delivery training supplier audit customer delivery quality audit audit customer quality plant supplier plant customer delivery training maintenance plant energy inventory maintenance delivery maintenance sensor training plant.

Metric	Value	Change
Safety metric 1	473	6.2%
Safety metric 2	648	26.1%
Safety metric 3	783	32.7%
Safety metric 4	362	66.5%

Section 2: Quality

budget energy supplier inventory audit output sensor customer inventory inventory delivery training supplier plant maintenance output safety delivery energy sensor delivery budget quality delivery supplier budget customer energy output supplier schedule delivery supplier quality inventory output schedule quality customer customer supplier audit quality customer plant output sensor energy budget maintenance plant safety customer sensor delivery training supplier audit schedule maintenance quality plant budget schedule plant inventory audit delivery training safety quality customer sensor quality schedule budget inventory maintenance output quality maintenance delivery quality plant training maintenance supplier quality audit budget sensor training quality energy audit audit customer customer delivery audit supplier supplier audit maintenance budget quality output maintenance training energy quality schedule budget audit training delivery quality output audit supplier.

Metric	Value	Change
Quality metric 1	537	71.8%
Quality metric 2	379	9.5%
Quality metric 3	721	76.0%
Quality metric 4	787	40.5%

Section 3: Delivery

energy customer schedule supplier training audit supplier inventory customer customer supplier delivery schedule quality sensor training plant audit energy inventory supplier delivery schedule supplier audit supplier training energy schedule schedule inventory delivery delivery supplier schedule delivery customer training maintenance delivery budget training quality training training customer audit delivery delivery energy quality energy quality safety training delivery budget training audit supplier customer output customer schedule customer maintenance quality sensor inventory budget sensor energy schedule budget maintenance supplier sensor energy inventory training schedule supplier customer plant safety quality sensor audit sensor schedule quality safety inventory schedule quality schedule customer plant audit safety quality plant budget quality output delivery quality audit safety energy plant maintenance audit delivery maintenance schedule sensor output sensor safety.

Metric	Value	Change
Delivery metric 1	253	92.5%
Delivery metric 2	10	45.6%
Delivery metric 3	984	36.6%
Delivery metric 4	897	15.8%

Section 4: Cost

delivery plant energy sensor supplier output supplier energy energy delivery sensor supplier delivery training quality maintenance maintenance training sensor schedule energy delivery audit quality quality sensor maintenance sensor audit safety quality sensor output delivery training budget schedule plant maintenance output delivery sensor budget sensor energy quality delivery schedule budget budget sensor maintenance maintenance maintenance safety audit supplier audit customer maintenance maintenance training budget quality sensor sensor supplier customer supplier audit supplier maintenance plant delivery supplier audit budget supplier quality audit plant output schedule sensor audit safety supplier plant inventory quality training maintenance plant audit energy energy supplier safety budget audit inventory plant safety audit supplier training quality customer supplier supplier audit sensor audit energy schedule training sensor budget customer budget.

Metric	Value	Change
Cost metric 1	131	3.2%
Cost metric 2	317	37.8%
Cost metric 3	735	44.9%
Cost metric 4	313	94.8%

Section 5: People

plant audit delivery delivery schedule customer training sensor quality plant plant supplier energy audit schedule budget output budget schedule energy safety plant maintenance inventory inventory maintenance sensor sensor customer customer schedule schedule audit training budget training maintenance audit maintenance schedule training customer safety budget supplier audit training inventory output supplier training plant customer inventory maintenance sensor supplier schedule inventory audit budget supplier quality quality audit customer energy budget audit delivery energy quality maintenance sensor energy inventory plant output customer safety supplier training output inventory output schedule plant delivery customer maintenance output maintenance customer audit plant output training output safety sensor schedule training output customer budget quality supplier customer budget audit quality quality sensor quality maintenance inventory quality output sensor safety.

Metric	Value	Change
People metric 1	54	72.1%
People metric 2	686	49.1%
People metric 3	296	8.9%
People metric 4	599	16.6%

Section 6: Maintenance

budget sensor quality plant maintenance output delivery schedule sensor audit audit delivery schedule delivery budget plant quality customer supplier quality sensor schedule schedule energy supplier budget energy energy sensor safety supplier output energy safety supplier training inventory supplier energy quality inventory safety training delivery audit customer maintenance quality quality customer plant schedule delivery output sensor schedule plant output training output energy sensor audit safety maintenance budget audit audit delivery output inventory energy plant energy customer maintenance plant training quality maintenance schedule inventory safety customer output output budget schedule audit training safety quality customer sensor maintenance delivery training safety supplier delivery budget sensor customer delivery inventory maintenance maintenance quality customer training delivery schedule supplier inventory schedule maintenance training delivery energy plant.

Metric	Value	Change
Maintenance metric 1	616	74.3%
Maintenance metric 2	767	24.6%
Maintenance metric 3	74	13.0%
Maintenance metric 4	43	24.3%

Section 7: Energy

safety plant audit budget budget audit schedule inventory delivery plant maintenance audit supplier budget budget sensor budget maintenance delivery audit audit output safety quality schedule quality output delivery training maintenance training budget audit quality energy supplier output supplier training quality inventory supplier schedule safety plant audit budget plant delivery budget inventory delivery delivery plant customer plant schedule audit audit training quality output inventory schedule delivery supplier audit schedule safety customer quality plant safety customer plant sensor safety schedule output sensor maintenance budget customer delivery schedule supplier quality audit delivery supplier output customer customer audit quality inventory safety quality schedule safety plant schedule sensor maintenance customer supplier plant audit plant audit inventory schedule maintenance quality plant plant energy training training energy.

Metric	Value	Change
Energy metric 1	588	45.1%
Energy metric 2	743	10.3%
Energy metric 3	930	63.1%
Energy metric 4	968	61.0%

Section 8: Suppliers

schedule safety schedule plant audit maintenance inventory plant plant supplier training maintenance audit supplier schedule plant budget plant safety quality customer energy schedule maintenance safety energy safety output budget delivery inventory output output energy budget quality sensor output training customer safety sensor plant audit energy delivery audit maintenance sensor inventory maintenance energy schedule quality customer plant budget inventory supplier customer audit budget training safety energy output quality supplier audit output inventory inventory supplier training maintenance delivery quality quality energy output audit safety customer output inventory maintenance sensor schedule safety supplier plant audit customer safety plant customer safety inventory supplier budget delivery budget output output maintenance inventory delivery maintenance inventory inventory energy plant budget supplier schedule inventory quality sensor plant audit.

Metric	Value	Change
Suppliers metric 1	156	89.0%
Suppliers metric 2	755	7.6%
Suppliers metric 3	284	14.6%
Suppliers metric 4	585	17.5%

Section 9: Inventory

output supplier quality quality supplier audit schedule delivery supplier plant output energy inventory customer energy plant plant output plant quality training delivery maintenance training supplier sensor plant safety energy maintenance quality delivery safety delivery delivery plant quality sensor sensor training quality customer output supplier energy sensor quality schedule customer quality audit inventory maintenance inventory maintenance output delivery delivery audit budget safety audit sensor maintenance quality audit plant inventory schedule budget quality energy audit audit sensor plant output quality training training maintenance schedule plant safety plant plant budget sensor safety audit customer budget delivery maintenance audit safety safety supplier training safety supplier energy energy delivery inventory inventory inventory safety delivery delivery inventory safety training schedule training budget training plant sensor audit.

Metric	Value	Change
Inventory metric 1	420	45.2%
Inventory metric 2	156	31.7%
Inventory metric 3	400	5.1%
Inventory metric 4	183	51.1%

Section 10: Customers

inventory customer supplier budget budget safety inventory inventory inventory delivery audit schedule audit training energy sensor output inventory safety maintenance customer plant output energy sensor sensor sensor quality training maintenance plant delivery schedule plant sensor supplier energy maintenance energy audit energy customer customer maintenance audit inventory training sensor budget budget customer energy schedule plant energy quality inventory maintenance delivery sensor plant schedule inventory energy safety supplier supplier output plant output inventory delivery sensor sensor training inventory customer maintenance supplier budget plant supplier budget customer safety output plant inventory output schedule supplier budget delivery customer inventory training budget customer sensor sensor energy safety audit energy output budget output safety delivery inventory energy maintenance maintenance plant schedule maintenance maintenance quality inventory schedule.

Metric	Value	Change
Customers metric 1	551	27.9%
Customers metric 2	339	50.5%
Customers metric 3	121	89.8%
Customers metric 4	714	92.5%

Section 11: Projects

safety budget output safety supplier supplier inventory supplier inventory sensor output budget quality output schedule maintenance inventory quality safety schedule output sensor sensor schedule training schedule budget energy customer maintenance maintenance safety maintenance audit energy sensor budget safety supplier maintenance supplier output sensor budget delivery quality maintenance plant quality output supplier sensor energy sensor sensor quality maintenance safety delivery sensor output schedule inventory customer delivery customer output plant audit quality training energy output delivery safety training audit schedule maintenance budget budget safety budget customer sensor training inventory audit training output plant safety schedule quality output output delivery quality delivery sensor inventory output sensor inventory audit customer delivery training inventory inventory quality customer budget budget energy sensor schedule training training output.

Metric	Value	Change
Projects metric 1	384	14.1%
Projects metric 2	210	27.5%
Projects metric 3	393	23.7%
Projects metric 4	922	88.1%

Section 12: Training

safety maintenance energy audit maintenance plant output sensor delivery quality schedule plant audit maintenance delivery customer output audit inventory customer customer supplier plant output inventory audit delivery inventory customer safety budget delivery maintenance quality supplier budget audit schedule customer inventory inventory output sensor output supplier maintenance delivery training output energy maintenance plant safety maintenance safety supplier schedule customer output quality supplier output energy audit maintenance quality energy training maintenance training budget safety output audit delivery quality inventory output plant training inventory quality delivery inventory plant plant supplier energy audit maintenance training energy output plant safety safety inventory audit plant audit energy output supplier sensor training schedule audit energy plant plant quality maintenance inventory inventory energy maintenance training sensor budget schedule.

Metric	Value	Change
Training metric 1	670	80.9%
Training metric 2	46	28.0%
Training metric 3	441	99.6%
Training metric 4	841	56.6%

Section 13: Audits

plant training inventory quality budget delivery quality supplier inventory safety maintenance training output delivery safety maintenance maintenance safety supplier quality audit delivery supplier plant schedule schedule output inventory quality inventory audit output output schedule maintenance plant budget maintenance budget quality safety schedule plant customer training audit delivery sensor audit quality audit safety output budget delivery sensor plant plant quality inventory maintenance output supplier quality inventory schedule delivery delivery inventory safety quality supplier energy budget budget customer energy output supplier output output schedule maintenance delivery supplier delivery budget audit energy sensor audit training safety sensor quality supplier plant energy plant customer maintenance quality safety audit schedule customer plant plant plant inventory safety maintenance safety energy customer sensor safety inventory supplier plant.

Metric	Value	Change
Audits metric 1	833	65.3%
Audits metric 2	49	89.6%
Audits metric 3	915	45.0%
Audits metric 4	581	39.7%

Section 14: Risks

audit output schedule output budget budget delivery sensor energy supplier customer sensor budget sensor maintenance maintenance supplier training quality sensor budget schedule output schedule audit plant customer safety energy sensor maintenance output budget energy supplier training energy delivery training maintenance quality audit delivery output audit plant sensor sensor safety sensor audit plant plant customer output output delivery budget quality delivery delivery supplier training supplier audit inventory quality customer output supplier supplier training plant schedule supplier maintenance quality schedule inventory safety customer supplier sensor budget budget audit budget budget training quality sensor quality sensor plant budget customer delivery energy output plant audit plant customer training sensor audit schedule training schedule plant plant sensor maintenance output maintenance customer energy sensor audit sensor.

Metric	Value	Change
Risks metric 1	600	29.8%
Risks metric 2	981	90.1%
Risks metric 3	732	9.9%
Risks metric 4	105	6.1%

Section 15: Capital

customer audit supplier schedule energy budget energy customer training output schedule schedule training supplier output maintenance inventory supplier supplier audit supplier supplier plant budget inventory delivery energy schedule budget audit audit maintenance quality schedule safety supplier delivery sensor safety audit output quality delivery output schedule maintenance audit sensor energy schedule maintenance quality safety quality budget audit quality schedule energy audit budget sensor delivery budget plant quality maintenance supplier sensor audit energy energy budget safety energy safety schedule quality maintenance energy inventory supplier training delivery supplier sensor output safety supplier maintenance delivery training budget energy supplier audit schedule customer schedule output training output customer inventory output delivery output output training schedule supplier training inventory sensor quality plant inventory energy maintenance quality.

Metric	Value	Change
Capital metric 1	661	43.4%
Capital metric 2	112	53.5%
Capital metric 3	913	13.4%
Capital metric 4	75	38.5%

Section 16: Outlook

maintenance training maintenance output output supplier output quality plant output inventory customer budget energy maintenance output audit maintenance output safety maintenance plant sensor energy supplier schedule output schedule energy delivery budget delivery output audit maintenance output quality inventory safety output sensor energy output output schedule schedule energy maintenance maintenance output supplier supplier energy audit training maintenance plant safety budget energy budget quality maintenance schedule schedule quality budget safety delivery budget inventory customer energy output quality supplier plant training schedule audit supplier audit energy budget inventory sensor schedule energy supplier supplier quality customer schedule supplier audit audit maintenance inventory customer sensor output quality sensor safety audit customer customer inventory output audit safety quality safety quality schedule output customer audit supplier sensor.

Metric	Value	Change
Outlook metric 1	485	87.2%
Outlook metric 2	831	90.7%
Outlook metric 3	117	39.9%
Outlook metric 4	916	33.5%

Section 17: Governance

customer plant energy customer energy output safety inventory plant delivery sensor sensor audit schedule training audit training training energy budget sensor supplier sensor delivery plant budget supplier quality energy maintenance supplier maintenance delivery inventory quality supplier schedule safety inventory customer plant plant audit quality supplier training maintenance schedule supplier maintenance training training sensor schedule audit delivery budget customer energy energy delivery customer customer sensor inventory inventory plant quality sensor audit schedule plant energy inventory audit inventory audit training delivery plant safety energy plant audit output customer safety quality quality training energy safety schedule training maintenance schedule output maintenance maintenance schedule training safety schedule supplier budget plant safety schedule safety sensor output customer budget energy delivery maintenance sensor supplier safety customer.

Metric	Value	Change
Governance metric 1	106	48.8%
Governance metric 2	621	71.7%
Governance metric 3	813	88.0%
Governance metric 4	923	34.8%

Section 18: Appendix

training plant quality maintenance plant audit plant safety inventory safety output quality audit budget audit budget inventory audit audit supplier energy output plant inventory inventory customer inventory sensor sensor audit training sensor sensor sensor customer budget training training sensor safety plant schedule budget audit energy safety output customer delivery safety output energy delivery budget output quality safety maintenance plant plant maintenance plant supplier safety customer training maintenance maintenance quality inventory output budget maintenance customer safety safety quality maintenance budget audit quality maintenance plant supplier audit energy inventory safety customer customer training training schedule supplier inventory output training safety budget maintenance inventory training maintenance training schedule budget schedule energy budget training customer customer audit customer safety safety delivery sensor supplier customer.

Metric	Value	Change
Appendix metric 1	708	99.0%
Appendix metric 2	206	69.2%
Appendix metric 3	384	82.1%
Appendix metric 4	735	78.6%
