Plant Inspection Report 2026

Inspection 1

Target audit vendor service output training process inventory sensor delivery shipment compliance inventory output delivery vendor plant supplier customer maintenance quality control budget service inventory delivery output policy vendor training review energy report warehouse margin region capacity contract growth product customer safety plant budget policy schedule training budget safety process training risk output capacity audit schedule capacity budget risk risk sensor control warehouse compliance capacity contract schedule process sensor customer capacity quality energy safety audit audit region safety schedule cost report control warehouse target quality growth demand region quality safety service demand sensor maintenance region.

Check	Result	Reading
Check 1.1	Fail	40.9
Check 1.2	Pass	17.6
Check 1.3	Fail	48.2
Check 1.4	Fail	54.0

Inspection 2

Plant capacity schedule payment customer product budget target process compliance delivery demand capacity control output warehouse contract maintenance audit target contract growth maintenance quality service region delivery output region audit shipment payment audit payment schedule product sensor review margin audit training plant cost budget sensor payment delivery training product shipment energy plant review capacity shipment energy target output demand region process warehouse policy cost energy training service training cost control report customer growth quality customer plant cost cost schedule training review service vendor process capacity plant shipment process compliance product margin output safety margin warehouse.

Check	Result	Reading
Check 2.1	Fail	49.0
Check 2.2	Pass	22.7
Check 2.3	Pass	59.6
Check 2.4	Pass	71.8

Inspection 3

Product report sensor payment compliance policy compliance policy output contract payment process product product plant energy training training warehouse output payment risk compliance supplier output demand report sensor report budget payment product review risk process region region region schedule warehouse safety capacity supplier safety payment warehouse target process customer target growth warehouse product demand warehouse demand maintenance contract report policy warehouse energy contract service process supplier maintenance plant delivery customer safety target product growth output output audit contract policy energy plant schedule maintenance risk policy budget quality energy compliance delivery payment region training warehouse customer.

Check	Result	Reading
Check 3.1	Pass	10.6
Check 3.2	Fail	4.0
Check 3.3	Pass	52.0
Check 3.4	Fail	26.5

Inspection 4

Training target growth shipment vendor budget customer quality service budget policy safety output demand control energy energy training target sensor training safety margin risk control report growth audit capacity warehouse shipment risk policy schedule policy review audit audit sensor payment risk report control training sensor vendor margin service shipment contract product schedule process margin delivery contract safety plant compliance safety product risk audit service sensor product target target output margin service review sensor margin payment compliance compliance delivery growth audit schedule policy report budget compliance output compliance demand safety safety output maintenance warehouse customer report.

Check	Result	Reading
Check 4.1	Pass	21.6
Check 4.2	Pass	36.3
Check 4.3	Pass	87.7
Check 4.4	Pass	95.8

Inspection 5

Compliance report shipment report cost cost cost schedule plant warehouse region control demand customer payment energy warehouse compliance control report quality region shipment sensor inventory supplier cost compliance policy review sensor contract cost review safety plant report risk margin safety delivery process delivery plant sensor safety target sensor cost report service audit payment process delivery growth payment schedule payment supplier delivery contract sensor delivery schedule review quality payment region schedule vendor delivery compliance demand process customer growth audit capacity plant supplier audit vendor service demand compliance schedule region warehouse contract target inventory inventory schedule region.

Check	Result	Reading
Check 5.1	Fail	37.9
Check 5.2	Pass	46.3
Check 5.3	Pass	23.7
Check 5.4	Pass	6.4

Inspection 6

Sensor shipment energy quality inventory warehouse energy review vendor compliance sensor process shipment sensor shipment maintenance contract audit region delivery compliance capacity training vendor maintenance capacity output region review sensor cost payment growth cost vendor output capacity compliance target customer schedule risk safety capacity vendor product quality vendor budget margin payment region audit delivery margin maintenance audit training policy audit supplier audit demand compliance supplier audit warehouse plant growth control sensor service product safety growth cost demand output sensor growth target vendor delivery contract delivery product warehouse maintenance growth review maintenance maintenance policy process service.

Check	Result	Reading
Check 6.1	Pass	23.7
Check 6.2	Fail	53.9
Check 6.3	Pass	76.9
Check 6.4	Pass	44.6

Inspection 7

Cost vendor vendor plant maintenance cost payment maintenance delivery customer product control output policy customer maintenance training customer policy region payment region service service plant inventory vendor risk report sensor service inventory schedule training region target control capacity maintenance schedule capacity product process cost policy capacity compliance policy maintenance sensor growth policy shipment customer product compliance shipment quality margin supplier process plant schedule process output delivery target product safety audit quality review compliance quality cost policy training service output warehouse service quality audit review target demand energy product capacity warehouse vendor inventory risk service region.

Check	Result	Reading
Check 7.1	Pass	67.8
Check 7.2	Pass	49.5
Check 7.3	Pass	72.8
Check 7.4	Pass	64.1

Inspection 8

Audit warehouse policy review quality compliance customer policy warehouse vendor shipment report sensor report region region target maintenance control output training product review service delivery sensor output target energy budget policy capacity growth audit report schedule process capacity process delivery quality target maintenance training warehouse report compliance review cost customer supplier target schedule quality quality review maintenance budget margin energy risk sensor report policy growth service safety report process policy growth process delivery payment vendor review plant payment safety quality training shipment warehouse contract customer report quality output service control process review target capacity vendor.

Check	Result	Reading
Check 8.1	Fail	24.0
Check 8.2	Pass	42.7
Check 8.3	Pass	60.1
Check 8.4	Pass	40.7

Inspection 9

Shipment schedule product target schedule supplier budget region plant process contract budget control output energy energy product review region inventory review product control risk process report review contract shipment policy risk safety risk budget customer plant vendor inventory service maintenance process cost capacity sensor vendor compliance contract target payment service output product demand demand demand vendor training audit payment service capacity delivery inventory safety service schedule payment capacity payment region service process delivery growth policy output product cost policy cost output maintenance policy delivery cost policy region cost region capacity region maintenance process budget product.

Check	Result	Reading
Check 9.1	Pass	28.1
Check 9.2	Fail	6.2
Check 9.3	Pass	90.1
Check 9.4	Pass	27.7

Inspection 10

Safety target output sensor warehouse product cost control warehouse maintenance review energy report margin training cost budget sensor training plant vendor review policy margin training policy compliance service quality audit region training service control contract target inventory product margin warehouse customer training demand demand service plant energy quality plant control report contract quality supplier product growth warehouse contract contract delivery quality energy warehouse safety energy service product supplier shipment delivery supplier supplier quality control shipment maintenance review payment policy payment output energy cost demand demand region control payment margin margin supplier sensor sensor payment budget.

Check	Result	Reading
Check 10.1	Fail	39.5
Check 10.2	Pass	17.6
Check 10.3	Fail	31.7
Check 10.4	Pass	50.9

Inspection 11

Payment audit supplier sensor plant margin report region margin inventory budget service capacity product capacity demand sensor risk product payment contract process target policy growth compliance margin margin energy cost warehouse compliance report risk report energy capacity output capacity delivery growth capacity policy growth target payment target policy process training warehouse growth risk policy maintenance quality supplier customer payment risk report delivery demand customer energy margin region inventory supplier margin region safety safety training review report product sensor schedule contract plant capacity supplier policy risk report demand report cost safety contract policy growth compliance target.

Check	Result	Reading
Check 11.1	Fail	97.4
Check 11.2	Fail	50.2
Check 11.3	Fail	84.4
Check 11.4	Fail	60.3

Inspection 12

Training cost supplier delivery risk policy payment target supplier capacity delivery sensor customer quality contract inventory capacity supplier inventory report demand policy vendor control audit vendor shipment product shipment energy sensor delivery safety supplier schedule schedule energy training process contract control review quality service contract policy warehouse safety cost service warehouse quality output target audit supplier payment safety warehouse policy demand sensor demand sensor audit training audit product schedule service policy training service policy vendor service schedule process schedule maintenance product process audit process sensor audit report safety growth vendor product energy energy audit quality.

Check	Result	Reading
Check 12.1	Fail	79.9
Check 12.2	Fail	95.3
Check 12.3	Pass	6.1
Check 12.4	Fail	47.7

Inspection 13

Quality energy supplier policy review product quality warehouse schedule training review schedule review demand customer compliance maintenance budget budget cost region compliance risk compliance customer budget compliance maintenance vendor schedule service sensor process delivery customer energy product payment report quality product cost contract schedule shipment payment service maintenance maintenance growth quality delivery policy vendor shipment growth plant customer process capacity quality review supplier cost control compliance cost process control budget service audit delivery maintenance contract maintenance cost warehouse quality service safety warehouse payment compliance policy policy inventory growth region review capacity region risk plant report.

Check	Result	Reading
Check 13.1	Pass	90.7
Check 13.2	Pass	71.5
Check 13.3	Fail	63.3
Check 13.4	Pass	56.8

Inspection 14

Budget safety region warehouse supplier region region sensor cost contract sensor contract process process policy growth policy sensor service warehouse budget demand capacity shipment contract warehouse cost training service supplier vendor target contract policy region contract energy process contract shipment plant product region supplier compliance output capacity capacity review schedule training budget training vendor target payment payment customer warehouse control budget training contract service warehouse contract service delivery quality quality compliance quality capacity compliance report schedule report margin policy plant margin delivery energy customer margin budget capacity report schedule delivery schedule product demand shipment target.

Check	Result	Reading
Check 14.1	Pass	40.8
Check 14.2	Pass	82.8
Check 14.3	Pass	3.4
Check 14.4	Fail	29.2

Inspection 15

Target audit target risk safety target delivery quality training growth contract audit vendor product maintenance delivery process inventory shipment cost training plant report control sensor energy report supplier energy plant output training contract compliance inventory payment inventory risk safety quality margin inventory growth control compliance customer audit review product inventory policy target capacity target sensor quality warehouse plant payment delivery contract audit customer service risk vendor maintenance process report contract training customer schedule margin compliance schedule plant compliance control cost product delivery compliance safety delivery capacity audit maintenance training demand compliance customer process safety maintenance.

Check	Result	Reading
Check 15.1	Pass	51.8
Check 15.2	Fail	90.8
Check 15.3	Pass	70.4
Check 15.4	Fail	82.4

Inspection 16

Output growth capacity warehouse risk shipment control capacity energy inventory customer risk demand target process policy inventory inventory process warehouse warehouse payment quality vendor delivery product inventory training shipment maintenance review schedule policy output cost shipment maintenance audit demand budget vendor quality energy review capacity risk region product supplier plant plant margin vendor service output target growth capacity risk service delivery vendor safety delivery target plant product compliance sensor review process shipment contract audit contract vendor audit contract audit capacity target report supplier delivery compliance growth process plant cost schedule plant shipment product vendor contract.

Check	Result	Reading
Check 16.1	Fail	20.8
Check 16.2	Pass	18.2
Check 16.3	Pass	46.0
Check 16.4	Pass	29.6

Inspection 17

Audit risk warehouse process contract sensor contract audit service schedule growth sensor sensor risk maintenance plant maintenance vendor capacity region demand schedule energy capacity product compliance policy audit training compliance target demand process plant process capacity audit process service budget warehouse energy policy maintenance risk demand region plant schedule schedule warehouse capacity output safety payment contract inventory quality sensor plant cost control output shipment service cost delivery product contract service vendor schedule cost sensor quality energy training plant sensor payment report quality cost product quality delivery contract cost energy payment cost supplier vendor budget risk.

Check	Result	Reading
Check 17.1	Fail	22.6
Check 17.2	Pass	22.5
Check 17.3	Pass	3.0
Check 17.4	Pass	84.5

Inspection 18

Service quality control supplier compliance report customer delivery warehouse budget target growth control report target service warehouse service report customer product customer vendor target energy demand cost training product customer customer process output service payment review payment policy delivery compliance delivery process shipment output region warehouse cost service safety report energy supplier target plant growth shipment review cost demand review service maintenance report energy demand sensor cost demand report training service target sensor schedule policy region product output process service vendor compliance warehouse inventory cost customer audit process compliance control compliance budget margin risk warehouse.

Check	Result	Reading
Check 18.1	Fail	44.7
Check 18.2	Pass	98.9
Check 18.3	Pass	3.5
Check 18.4	Pass	47.6

Inspection 19

Cost energy growth control cost shipment schedule inventory target vendor schedule safety risk growth warehouse region audit inventory audit customer margin shipment budget audit control contract customer region shipment capacity target cost compliance report budget service product customer policy target inventory output contract warehouse sensor target energy supplier contract warehouse demand control risk vendor customer review process warehouse service product plant cost warehouse plant growth vendor shipment customer control cost customer shipment compliance shipment customer inventory energy cost report warehouse report cost contract vendor shipment inventory safety supplier quality budget maintenance capacity inventory margin process.

Check	Result	Reading
Check 19.1	Pass	12.4
Check 19.2	Fail	75.6
Check 19.3	Fail	98.3
Check 19.4	Fail	92.8

Inspection 20

Product service risk control demand shipment customer supplier budget policy process supplier growth output safety compliance supplier contract demand plant quality inventory safety plant review review warehouse plant compliance output product delivery training margin energy demand output review cost growth process service review plant demand customer process maintenance warehouse maintenance supplier payment maintenance cost vendor capacity budget margin margin budget output customer plant contract sensor product sensor delivery review audit service contract product warehouse audit shipment supplier quality compliance process demand service growth customer region quality sensor process output quality target customer budget output audit.

Check	Result	Reading
Check 20.1	Pass	31.8
Check 20.2	Pass	34.1
Check 20.3	Pass	1.7
Check 20.4	Pass	16.2

Inspection 21

Quality review service payment maintenance customer control customer contract energy policy control safety vendor plant region compliance control margin control product growth vendor shipment product warehouse policy capacity capacity maintenance output compliance training payment control control product service inventory compliance margin region plant compliance training sensor payment compliance inventory output training schedule energy customer product output risk control contract compliance policy audit plant review demand plant demand sensor delivery sensor capacity risk service quality compliance capacity supplier customer review schedule cost demand quality shipment growth schedule report report supplier audit region customer product product plant.

Check	Result	Reading
Check 21.1	Fail	45.8
Check 21.2	Pass	49.5
Check 21.3	Fail	69.8
Check 21.4	Fail	55.0

Inspection 22

Safety compliance delivery review process vendor maintenance schedule report demand budget demand process vendor budget growth warehouse delivery cost output margin inventory contract policy sensor demand target schedule warehouse safety shipment review capacity growth policy cost compliance contract supplier report supplier contract supplier training policy control demand payment target customer inventory product control training region margin shipment delivery region contract audit shipment target quality payment maintenance audit energy product output growth schedule inventory quality shipment plant budget shipment risk safety quality report safety energy process warehouse service maintenance shipment service audit warehouse contract audit sensor.

Check	Result	Reading
Check 22.1	Pass	62.0
Check 22.2	Pass	19.0
Check 22.3	Pass	59.6
Check 22.4	Pass	89.8

Inspection 23

Schedule warehouse audit product training region output demand plant process output demand schedule service control warehouse control service quality training control payment quality payment audit inventory plant contract shipment schedule energy policy review product target margin shipment customer safety payment process training compliance schedule supplier target output budget review sensor sensor process budget control maintenance vendor training growth region quality audit customer plant target energy training shipment compliance region growth margin product contract margin product risk policy schedule plant plant customer region contract warehouse product energy contract sensor audit delivery payment demand service control maintenance.

Check	Result	Reading
Check 23.1	Fail	68.9
Check 23.2	Fail	27.4
Check 23.3	Pass	71.2
Check 23.4	Pass	68.3

Inspection 24

Product budget review shipment energy growth maintenance policy cost margin quality inventory contract sensor growth product compliance audit payment risk review review demand region shipment inventory safety payment output plant contract budget capacity policy target inventory growth region policy energy vendor report contract risk cost target capacity capacity safety growth growth shipment energy schedule payment capacity maintenance energy delivery compliance maintenance output contract growth product safety schedule control policy service vendor region customer payment process risk compliance cost policy target quality growth product safety schedule shipment plant review review schedule energy schedule audit compliance audit.

Check	Result	Reading
Check 24.1	Fail	44.9
Check 24.2	Fail	31.6
Check 24.3	Pass	98.0
Check 24.4	Fail	25.9

Inspection 25

Target policy process report supplier contract capacity energy customer control delivery report warehouse capacity policy process margin plant control delivery contract process compliance service training payment training sensor customer schedule energy sensor target vendor training delivery vendor shipment quality shipment output report demand customer output cost cost schedule process demand training demand process safety cost inventory process audit schedule region margin region training policy inventory cost energy process contract contract demand output policy process process energy process maintenance risk product service sensor review shipment budget service payment policy target demand safety safety schedule output warehouse.

Check	Result	Reading
Check 25.1	Pass	85.3
Check 25.2	Pass	63.5
Check 25.3	Pass	90.0
Check 25.4	Fail	76.3

Inspection 26

Demand inventory service warehouse service contract control capacity cost target supplier training audit demand warehouse maintenance report quality region inventory service product target schedule training contract demand sensor control supplier audit demand inventory vendor output plant supplier risk energy safety region plant product capacity cost payment control product process plant margin report audit control customer vendor payment audit delivery growth margin inventory training audit margin payment warehouse contract target delivery review cost process warehouse service inventory quality process customer target training demand product service service compliance capacity inventory shipment control compliance process product safety contract.

Check	Result	Reading
Check 26.1	Pass	20.0
Check 26.2	Pass	63.2
Check 26.3	Pass	33.3
Check 26.4	Fail	70.1

Inspection 27

Inventory region delivery process review growth compliance margin plant safety warehouse product contract region customer report compliance safety cost output demand plant report target compliance supplier budget compliance target inventory quality supplier audit target plant budget review sensor capacity capacity schedule safety audit vendor service policy service policy capacity shipment shipment energy safety supplier customer schedule risk compliance budget capacity review review compliance process capacity report budget delivery inventory demand quality report margin process capacity service control demand capacity region risk maintenance product demand risk plant plant vendor product control maintenance schedule margin report quality.

Check	Result	Reading
Check 27.1	Fail	96.5
Check 27.2	Fail	69.1
Check 27.3	Pass	25.9
Check 27.4	Fail	93.0

Inspection 28

Region report vendor contract energy maintenance vendor capacity output energy warehouse contract process inventory target product inventory energy cost customer training region schedule audit demand payment capacity audit plant maintenance inventory cost target compliance demand report output inventory audit payment budget budget warehouse margin vendor demand quality plant report contract product region energy margin shipment capacity audit shipment training policy payment target target demand vendor margin schedule payment review quality shipment region quality budget region schedule budget output vendor warehouse quality budget margin plant sensor margin output vendor budget training budget training target compliance report.

Check	Result	Reading
Check 28.1	Pass	73.9
Check 28.2	Pass	91.2
Check 28.3	Fail	72.3
Check 28.4	Pass	84.9

Inspection 29

Supplier growth shipment shipment customer training service target safety process plant region product contract cost energy control budget schedule inventory plant growth vendor contract shipment budget policy safety review shipment maintenance contract review maintenance maintenance shipment schedule safety plant schedule demand contract schedule safety quality cost quality schedule budget schedule report delivery schedule process risk warehouse safety training risk growth sensor contract contract review target supplier audit inventory quality service audit control margin risk policy product control review shipment review target process policy service quality service risk maintenance delivery warehouse safety energy demand compliance customer.

Check	Result	Reading
Check 29.1	Fail	69.7
Check 29.2	Fail	78.3
Check 29.3	Fail	30.6
Check 29.4	Pass	6.3

Inspection 30

Sensor demand control margin policy supplier cost inventory control demand maintenance energy inventory customer payment budget contract contract compliance region report process risk compliance output target warehouse vendor output plant risk supplier warehouse review maintenance budget service output audit capacity review quality customer quality risk vendor control shipment energy service review policy service safety audit schedule compliance safety sensor growth region service report supplier supplier sensor report region training budget maintenance sensor warehouse quality audit target growth cost quality service process warehouse safety schedule growth audit region compliance risk review budget product audit payment margin.

Check	Result	Reading
Check 30.1	Pass	93.6
Check 30.2	Fail	64.5
Check 30.3	Fail	17.9
Check 30.4	Fail	22.0
